

## THE ARIZONA REPUBLICAN.

The REPUBLICAN has double the circulation of any other daily newspaper in Arizona, and is the only one issued every day in the year.

Preferred Locals 10 cents per line first insertion, and 5 cents per line each subsequent insertion.

All Contracts and bills for advertising payable monthly.

## Tucson Jottings.

From the Tucson Citizen.

Theodore Miller, Sergeant of Company D, Tucson Militia, employed at the Southern Pacific shops, had his right hand badly crushed by being caught in the cogs of a machine yesterday.

Anton Meyer, one of Tucson's old residents, a baker by trade, who started the first bakery in this city, died at his home on Meyer street yesterday afternoon at 4 o'clock, of bronchitis.

Deputy Marshal M. M. Hickey last night brought in a Mexican named Alonzo Salazar, and two Papago Indians from near Florence, who were arrested and brought before a justice for being disorderly. The trial disclosed the fact that the accused obtained their liquor from Salazar, who was arrested for the offense by United States Deputy Marshal Hickey, who brought him here and the Indians for witnesses. As the case is one for the United States District Court, which Judge Kibbey holds in Phoenix in January, the three are now in jail till that time.

Francisco Papera and Juan Verdugo are believers in protection—of themselves. This morning Officer Zimmerman, on his rounds in Barrio Libre, came across the aforesaid gentlemen, each armed, one with a large navy revolver, the other with an ugly looking knife with a six-inch blade, which would make very short work of an enemy in the hands of such a party as its owner. Papera and Verdugo came up before Judge Meyer to give an explanation, which was that they carried the arms to protect themselves. His Honor put them where they will be fully protected by the strong walls of the county jail for the next twenty days.

This morning at 1:30 o'clock two Mexicans became involved in a quarrel over \$5, in front of the home of Mr. Dobs, the barber, opposite Court Plaza, and in the struggle which followed one of the participants, a little fellow named Florencio Ruiz, better known as "de maule," drew a knife on his opponent, a much larger man, named Martin Diaz, and stabbed him several times, dangerously, the worst cuts being one in the groin and another in the shoulder. During the affray the man fell through the screen door of Mr. Dobs' bedroom, quickly arousing that gentleman, who took a hand in the affair. Diaz cried out in Spanish "He is killing me; stop him!" Mr. Dobs held Ruiz' wrists, and took the knife from him, when burly Diaz commenced using his fists again. A heavy oak cudgel in the hands of Mr. Dobs quickly cleared his house, and he marched Ruiz, who did the knifing, to jail, using the club as an inducement.

Don't fail to attend the Republican rally at the Opera House tonight.

## Fortifying Sweet Wines.

Collector Sears of San Francisco telegraphed to Washington, Wednesday, asking if a tax were to be paid on all grape brandy used to fortify sweet wines. On Thursday he received an answer from Commissioner John W. Mason saying a tax need not be paid on grape brandy used to fortify sweet wine, provided the wine-grower gives bonds to secure the tax and uses stamps. The local Internal Revenue Office is to be allowed ten additional gaugers to overlook the fortification of sweet wines.

## THE MARKETS.

NEW YORK, October 29.—The stock market today showed no material change in its general characteristics from those of the past few days. St. Paul shows a loss of 1 1/2 per cent, and Northern Pacific preferred is off 1 per cent.

## HOFF, OF TUCSON!

BELOW IS A CUT OF THE TERRITORIAL RENOWNED CHARLES F. HOFF, COMMONLY

known as HOFF, OF TUCSON. Mr. Hoff is Manufacturers' Agent and Merchandise Broker,

with headquarters at Tucson. He is the gentleman that has agitated the windmill question

so much, the results of which are being seen all over the Territory, and which is turning the

barren deserts into blooming gardens.

## THE AERMOTOR WINDMILL

Shows an increase of 35 per cent in power over all other mills. The wheel is entirely of STEEL.

Sun, Rain or Storm therefore have no effect on the same.

It is sold with or without TILTING TOWERS. FIXED TOWERS are the cheapest, but the

TILTING TOWER is the most convenient; same brings the wheel down to the ground for oiling.

Think of it: the wheel comes down to you.

The AERMOTOR has from 4 to 16-inch strokes. Three revolutions of the wheel to one

stroke of the pump allows it to start up under a heavy load, and runs when other wheels

are idle, not being "quite" sufficient wind to run other mills. The wheel itself being so LIGHT,

runs so much faster when started, and thus gains more in speed than it loses in the stroke. But

these are only a few reasons why the AERMOTOR is superior in Power, Construction and Durability

to all other wind-motors. However, so far as the power of the wheel is concerned, the greatest

gain in power is due to the structure of the wheel itself. To specify ALL the reasons for this

would be too tedious. Suffice it to say that this claim is based on numerous dynamometric tests

on more than sixty different wheels, and that the AERMOTOR has been submitted to long and ap-

plied practical tests, in conjunction with the leading wind-motors of the country, and it has been

proven by actual trial and measurement that the 8-foot Steel AERMOTOR will pump more water

in the same time, in any kind of wind, and will do the same work in lighter wind than the best

of 16-foot wooden wheels made. The AERMOTOR WIND ENGINE, without exaggeration, is the

greatest invention of the nineteenth century, and every home in Arizona should have one, as a

home without a windmill is like a library without books, a home without a soul.

CHARLES F. HOFF, Agent, Tucson, Arizona.
